

Ms. Doris Overstreet
498 House Rd.
Mansfield, Texas 76063

October 18, 2010

Hon. David L. Cook, Mayor
City Council
City of Mansfield
1200 E. Broad Street
Mansfield, Texas 76063

Dear Mayor and City Council:

As the landowner and resident at 498 House Road, I believe it is important that I state my opinion concerning the Granite Resources - Overstreet specific use permit (SUP) and request that you read this letter into the record as my statement of support. I am very excited about and in favor of this SUP on a portion of my land. This SUP will enable me and my neighbors to finally receive the royalties for the natural gas under our properties. I am also excited to be working with Granite Resources. They have been very nice and a pleasure to work with. When they have said they were going to do something, they did it themselves or made sure it got done.

I have attended the Planning and Zoning Commission meeting as well as the first public hearing of this case at City Council. I have heard your concerns and have worked with Granite Resources to consider the items mentioned during both meetings. However, as a result of actions taken after the first City Council meeting on this issue by an individual that is not in favor of drilling these wells, I choose not to put myself in that same situation and believe this letter is this best way for me to express my opinions for Council's consideration.

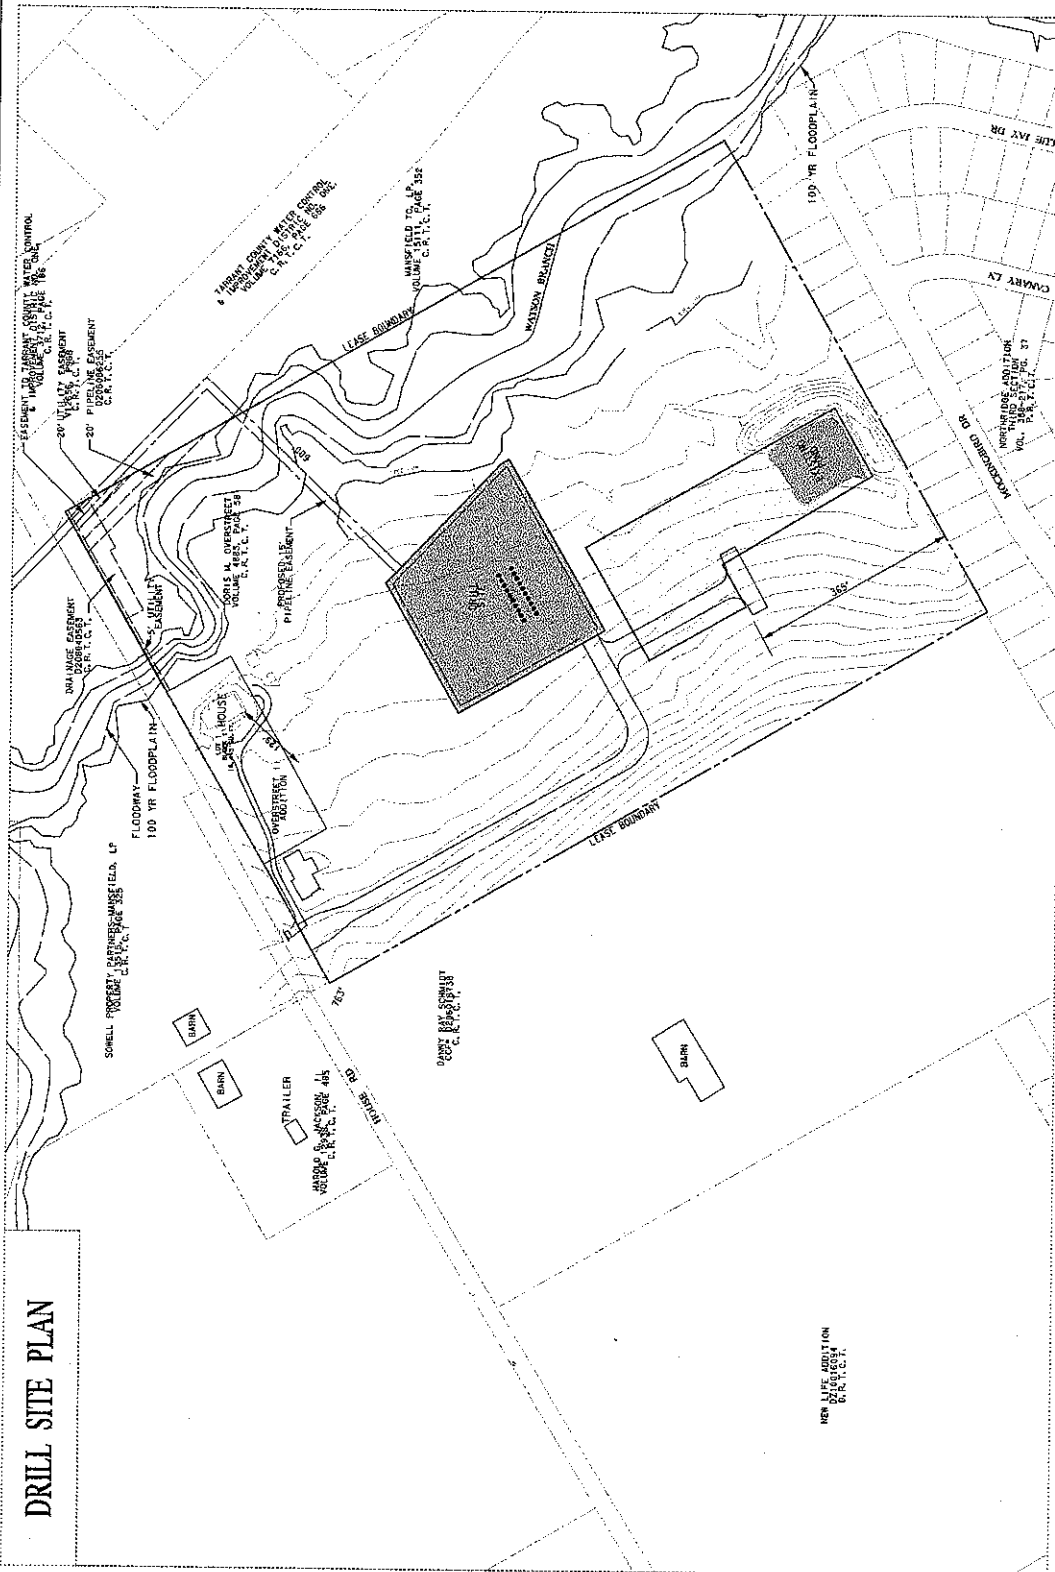

Finally, I would like to answer your questions about my preferences concerning the frac pond and the fence around the pad site. I prefer that my existing stock pond be used and expanded for the frac pond. My preference is to build the pond as originally presented. However, I am okay with Alternative 3, the expansion of the pond to the north between the pad site and existing pond, as presented at the City Council meeting on October 11, 2010. Council has had a lot of discussion regarding the fencing and landscaping around the pad site and the original SUP reflected my desires based on the City's allowable options. As originally presented, I prefer a wrought iron fence and landscaping around the pad site as this is compatible with the wrought iron fence that I currently have in place on my property. Please remember, this is my home and property and I have worked with Granite Resources to ensure that my desires, within the limitations of your ordinances, are reflected within this SUP.

Thank you for all of your time and attention to this matter.

A handwritten signature in cursive script that reads "Doris Overstreet". The ink is dark and the signature is fluid, with the first and last names being more prominent than the middle name.

Doris Overstreet
